Re: Notice of Intention to Drill Well No.
English #12, 1320' FNL & 660' FEL,
Sec. 21, T. 43 S., R. 22 E., San Juan
County, Utah

Gentlemen:

Approval to drill the above mentioned well cannot be granted at this time. Rule C-3 states that all wells drilled for oil and/or gas shall be located not less than 500 feet from any property or lease line or from the boundary of any legal subdivision comprising a governmental quarter-quarter section or equivalent lot or lots of comparable size and location.

However, the Commission may grant an exception to the requirements if the necessity for an unorthodox location is based on topographical and/or geological conditions, and that the ownership of all oil and gas leases within a radius of 660 feet of the proposed location is common with the ownership of the oil and gas leases under the proposed location, or all owners of oil and gas leases within such radius consent in writing to the proposed location. Also, Rule C-4 requires that a plat or map, which has been prepared by a licensed surveyor or engineer, showing the proposed well location be attached to the "Notice of Intention to Drill".

Approval can be granted if you will furnish the necessary information as required by Rule C-3(c), or re-locate the well.

Very truly yours,

Re: English WN, Well No. 12
SE, NE NE SE Section 21-43S-22E
San Juan County, Utah

Dear Sir:

This will acknowledge receipt of your letter of May 20, 1966, whereby our application for drilling the captioned location, as submitted, was disapproved.

Geologically, we desire to drill this well in the C NE NE of Section 21- in order to be updip as much as possible from Well No. 10. However, due to terrain the closest suitable location to the desired location is as follows:

1550' from the North Line and 660' from the East Line of Section 21-43S-22E, San Juan County, Utah.

Since this is an unorthodox location, pursuant Rule C-3, General Rules and Regulations, application for exception is hereby made on the following basis:

- (1) Topography (solid rock and cliff) prohibits drilling the well at the desired orthodox location.
- (2) Sinclair Oil & Gas Company is the owner of all oil and gas leases within 660' from the proposed location.

Enclosed are duplicate copies of our original application, duplicate copies of Sundry Notice advising change of location, and two copies of certified location plat.

If approval is granted for this application, we would appreciate being advised at the earliest possible date.

Re: Form DOGM 56-64-21 for Hondo Oil & Gas Co. Roswell, N M.

Dear Vicky:

Please find enclosed copies of the above referenced forms made out to Hondo Oil & Gas Co. These properties have been sold to Mountain States Petroelum Corp., and we have been making reports on said properties since June 1992. Mountain States Petroleum Corp.'s Account Number is 9500.

Please check and see if this has all been changed over to Mountain States Petro. Corp.

Thank you for your help in this matter.

Very truly yours,

Ruby Wickersham

English Lease - Navajo Nation I-149-IND-7180

Dear Ms. Romero,

Pursuant to our telephone conversations this date I am faxing you a copy of the assignment of mining lease approved by the Navajo Nation.

As we discussed, all of the English wells are located on this one Indian lease and this copy should allow you to change your records to show that Mountain States Petroleum Corporation took over as operator in June of this year.

If you are in need of anything further in this matter please let me know. Thank you for all of your assistance with this transfer.

Sincerely,

Judy Burkhart,
Secretary
